

**Dear Parents,
Greetings from AHPS, Chikhali!**

REPORT ON READING COMPETITION AT AHPS, CHIKHALI

"There is no substitute for reading in the life of a child.."

- May Ellen Chase

'Reading' an important aspect in learning process during student phase that enhances understanding and decoding written letters and words which later on enhances comprehension of written matter. At the initial stage children are given the activities like loud reading to recognize the letters and words and relate to the concrete understanding aspects. Students should get in habit of reading loudly to enhance pronunciation and comprehending the matter.

In order to enhance reading, Reading Competition was organised for standard III. Competition was held as per the rubrics that were, Pronunciation, Voice Modulation, Clarity of Voice and Time Management. Students were given one minute to read the given passage. Participation of children was also important as it made them understand importance of Reading and also motivated to enhance reading habit.

Reading Activity was aimed to enhance reading habits along with correct pronunciation and comprehension skills of students. Reading also helps enhance vocabulary. Reading as a continuous activity enables the reader to understand the use of words in different context, which enables the reader with better understanding of the word usage, thereby helping to develop comprehension skills.

Winners for the activity are:

- 1st prize won by – Joel Shetty
- 2nd prize won by- Parth Margaj
- 3rd prize won by – Roshan Patil

Best wishes

Pranita Mendsure

Principal AHPS
